

Monitoring Community Outcomes

A Safe City

We live free from crime, violence, abuse and injury. We are safe at home and in the community. Risks from hazards are managed and mitigated.

We will know when we are succeeding when:

Rates of crime and injury decline.

- Rates of juvenile offending decline.
- Child abuse and family violence decrease.
- Vehicle crashes decline.
- Alcohol is a less significant cause of crime and injury.

People feel safe at all times in Christchurch.

- We feel safe in our homes and neighbourhoods.
- We feel safe in the central city, especially at night.
- Pedestrians, cyclists, motorists and people with disabilities can safely move around our city.
- We feel safe using public transport.
- We are well prepared for natural hazards.

We have excellent safety networks, support people and services.

- We know our neighbours.
- Excellent support and prevention services are readily available.
- We are confident in our Police, judiciary and other justice services.

Headline Indicators

- **Accidental Injury**
 - [Rate of Hospital Discharges for Unintentional Injuries per 100,000 People](#) (PDF, 20 KB)
- **Overall crime**
 - [Total Reported Crime in Christchurch per 10,000 People, 1996-2006](#) (PDF, 19 KB)
- **Child Abuse and Neglect**
 - [Number of Notifications to Child Youth and Family, Canterbury](#) (PDF, 19 KB)

- **Perceptions of Safety**
 - [Respondents Who Feel Safe/Very Safe After Dark, 2000-2006](#) (PDF, 20 KB)
- **Road casualties**
 - [Rate of Road Crash Fatalities per 100,000 Population, Christchurch](#) (PDF, 19 KB)
 - [Rate of Road Crash Serious Injuries per 100,000 Population, Christchurch](#) (PDF, 19 KB)

Key Indicators

- **Injury**
 - [Rate of Hospital Discharges for Falls per 100,000 People](#) (PDF, 19 KB)
